DIET FOR THE HEADACHE SUFFERER

It is best to eat only freshly prepared foods to avoid the risk of eating foods that may have been aged, fermented, pickled or marinated. Tenderizers, monosodium glutamate, nitrate or nitrite compounds are likely to be provoking agents. Tyramine content may vary among brand names available in the market because of preparation, processing or storage. It is important to read labels carefully when shopping and ask questions when eating out.

| FOOD GROUP | FOODS ALLOWED | FOODS TO AVOID |
|---------------------------|---|---|
| Beverages | Decaffeinated coffee, colas containing no caffeine. Caffeine sources to be limited to two cups daily include coffee, tea & colas. | Alcoholic beverages, wines, ale & beer |
